"For Greater Things You Were Born."

These are words of Mother Luisita who we are celebrating throughout the month of February. Mother Luisita lived constantly in God's presence. Her life was one of prayer and intercession. She used to say, "I am a poor beggar at the foot of the tabernacle, always praying for you!"

Third Grade dressed for Friday's Mother Luisita Play

Since her death in 1937 many people have received favors through her intercession, including physical and spiritual healings of all kinds. We don't know exactly when people started to ask Mother Luisita's special intercession for babies who were sick, for couples who wanted so very much to have children, and for women with at-risk pregnancies. Many have asked and many have been granted. We have a display in the front office area which includes a binder for anyone who wishes to request Mother Luisita's intercession for any prayer intention. It is located on the left side of the display on the shelf by the inner door. All the Carmelite Sisters join you in your prayer request.
