Grade level growth in math each year

An Invitation to Partnership...

Great things are happening at
Sts. Peter and Paul Catholic STEM School!
Building on a legacy of faith and academic formation,
SPPS became a Catholic STEM School this fall.
WE INVITE YOU to partner with us
in this important and unique mission!

Adopt a Student: \$1,500

Consider 'adopting' one of our 109 students receiving tuition assistance. With this gift you can cover the average gap between their family's contribution/ scholarships and the cost to educate that student.

One Month's Tuition: \$560

Consider contributing the cost to educate a student for one month. Imagine how much a child will be enabled to learn with the gift of your generosity!

One Dollar a Day: \$180

It costs \$31 a day to educate a child at SPPS. Only \$27 of this expense is covered by tuition and scholarships. Your gift of a dollar a day will help fill this financial gap!

A gift of your choice:

A gift of any amount is most welcome!

sppscatholic.com/donate

Let's work together to form a generation of young people
who will use their faith and gifts to shape the world.

All donations are tax deductible and may be made as a one-time or monthly gift. Donations will not impact individual family contributions.
